### Welcome to the Stry of you

While each child's journey is different, there's one thing we know for certain: you're busy. Really busy. So congratulations on taking the first step toward documenting the moments that matter most—and the stories behind them. Rest assured, we've designed this book with you in mind—offering open-ended prompts that you can customize with simple words and our Everyday Prints to record what's most meaningful to you.

You'll also find space for longer letters; fill those lines with notes of encouragement from you and your loved ones. Because through it all, these are the sentiments that will move hearts and minds.

Each quirky display of handwriting, each misspelled word, and each smudge of ink makes this book wonderfully yours. Later, your (not-so-little) little one will flip through the pages, caring only that the words and photographs are a product of you. So don't sweat the small stuff—they're going to love it.

And as you begin this journey, we have a few hopes for you. Find laughter in the little things. Take pause in unexpected places. Embrace change and mobility. And through it all, take photos that will spark conversations worth returning to. Our wish is that this book withstands the tests of time, becoming an heirloom your family will keep close for generations to come.

We can't wait for you to get started.

### 1-6 Months Old

The most wonderful lesson is you—
for each day you learn, those around you
learn too. With every new experience, obstacle
and triumph, we're growing together—in the
only honest way we know how. Humbled by
the setbacks and renewed by the victories,
this is us. This is our growing family.
